SUMMARY

Full Stack Web Developer with a background in the Hospitality Industry with a life-long dedication to learning and volunteerism. Highly motivated, multitasking, and organized individual looking to surround and immures myself within a growing Tech Company as I transition into a new career.

TECHNICAL SKILLS

Group Technical Skills into categories without bullet points or tables. See sample categories.

Languages: JavaScript, C++, PHP, HTML,

Applications: Sublime, Visual Studio, React

PROJECTS

Read Me Generator | https://github.com/pault929/Can-you-READ-a-READaME|
https://pault929.github.io/Can-you-READ-a-READaME/
This project guides the user thru various questions and returns an easy READ ME file.
This is a great template/tool to use as a Read ME Generator and keep it consistent for all projects.
Individual project which incorporated NODE and JavaScript to create and execute school project.

Daily Schedule Manager | https://github.com/pault929/SchedulerHomeWork|
https://pault929.github.io/SchedulerHomeWork/
Create a simple calendar application that allows the user to save events for each hour of the day.
This app will run in the browser and feature dynamically updated HTML and CSS powered by jQuery.
Individual project which incorporated HTML, CSS, and JavaScript.

Quiz App | https://github.com/pault929/Quiz
https://pault929.github.io/Quiz/
This assignment was to create and fix bugs throughout program to help execute flow and call backs. I used some CSS to help clean up and make it more eye appealing to user.
Needed to look for bugs, and execute code where it connected pages and made code clean.
Html, CSS, JavaScript
